RE: Magnolia Place Assisted Living
Complaint #: CO00041872

Dear David Wareham,

The Colorado Department of Public Health and Environment has concluded an investigation of your allegation(s) under the authority of the Colorado Department of Public Health & Environment utilizing the regulations governing Assisted Living Residences.

An investigation was completed on 8/11/26. Three residents were included in the sample for this investigation.

Facility documents were reviewed. Three staff members were interviewed. Observations were conducted throughout the residence.

The allegation that the residence failed to provide protective oversight was not substantiated, which does not disprove the allegation. There was insufficient corroborating evidence to establish with certainty that the allegation occurred; therefore, no deficient practice was cited.

Records review and interviews revealed that the residence staff provided proper oversight for members. Observations showed that staff redirected residents as needed, adhering to their individual rights and care plans.

The facility is not required to submit a plan of correction.

Thank you for sharing your concerns.

Sincerely,

Dr. Steve Cox, DNP, RN
Home and Community Facilities Branch Chief
Health Facilities and Emergency Medical Services Division
